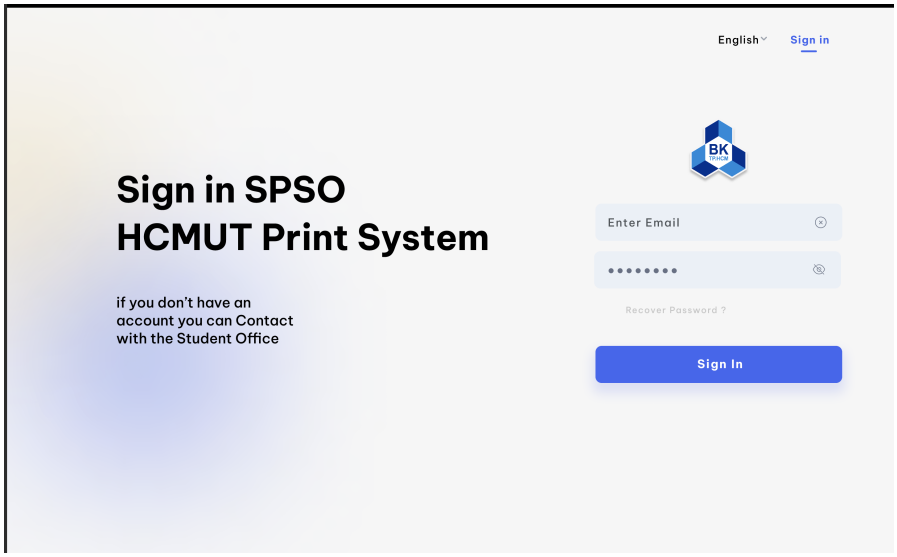
1 Login **2**

2 Home Page **2**

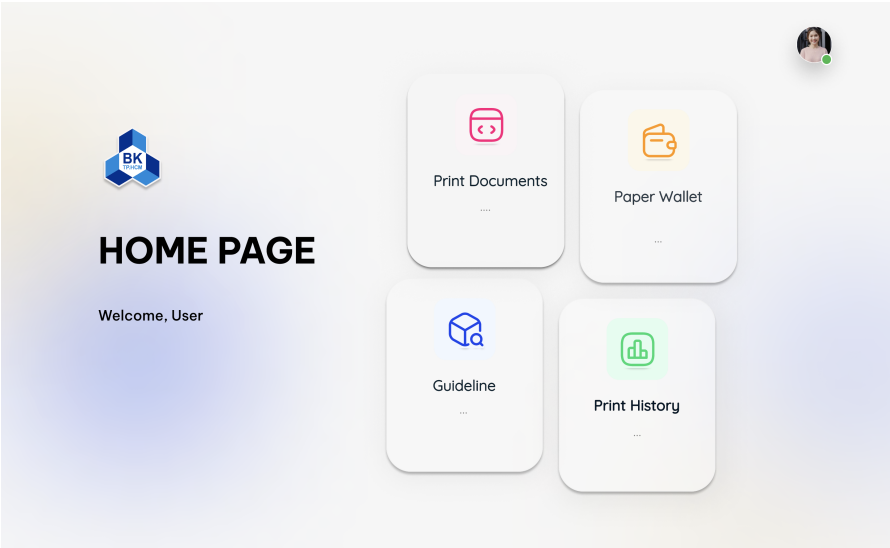
3 Print **4**

1 Login

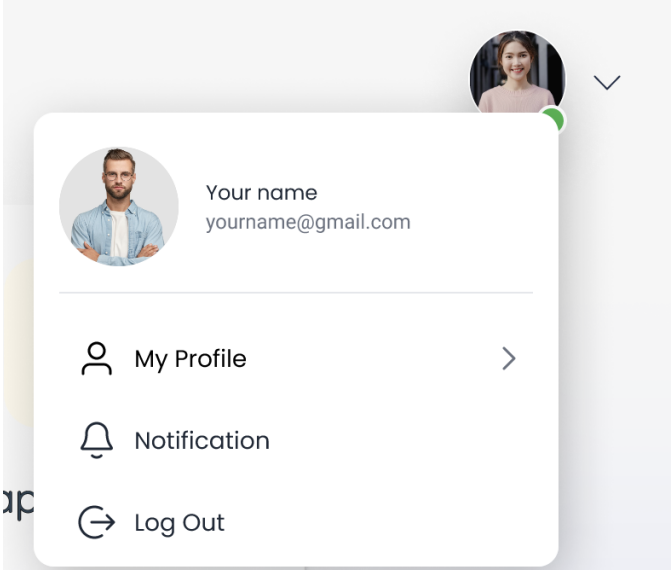


In this login page. The user will enter the Email and Password to sign in to their account.

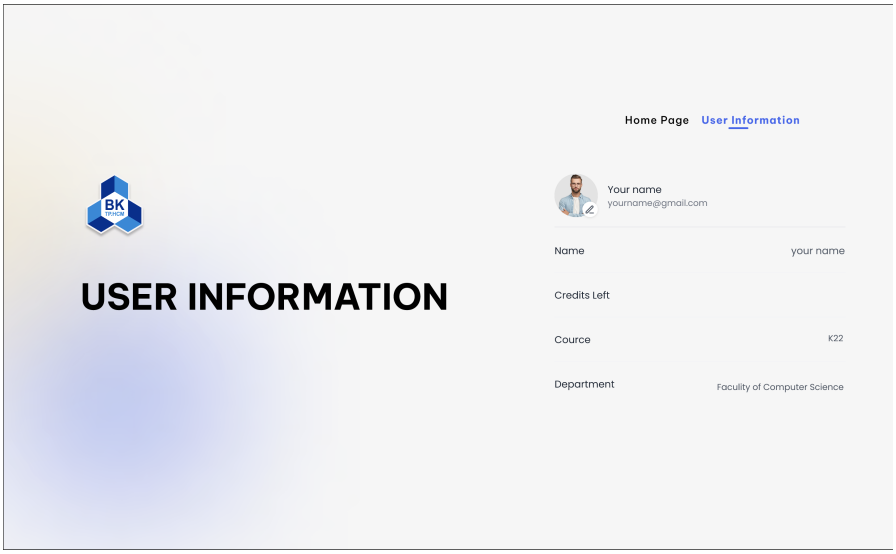
2 Home Page



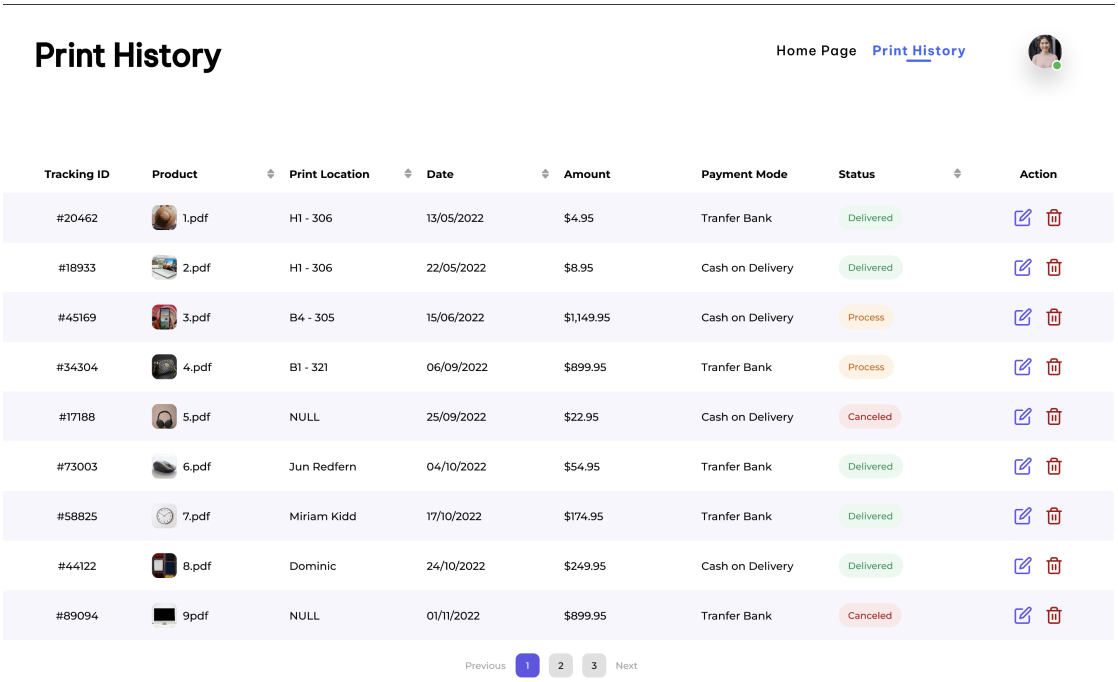
The Home page has a component for the user to choose, that is, Print documents, paper wallet, guild line and print history.



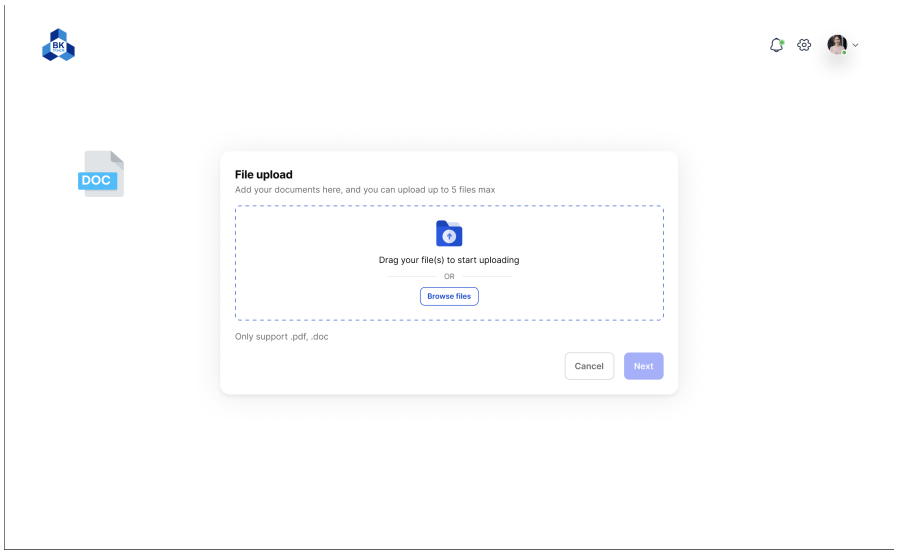
When click into their avatar. User can choose My Profile to see their information.



When click into the Print History, User can see their print history.

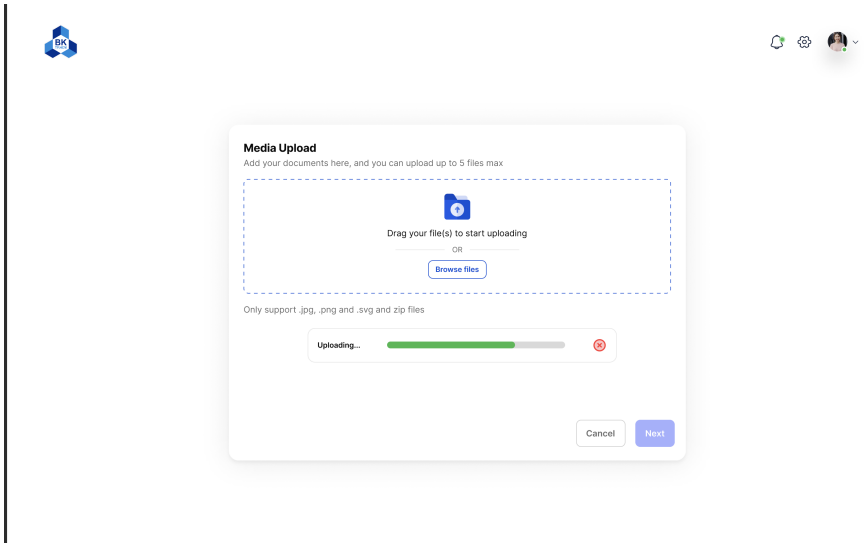


3 Print

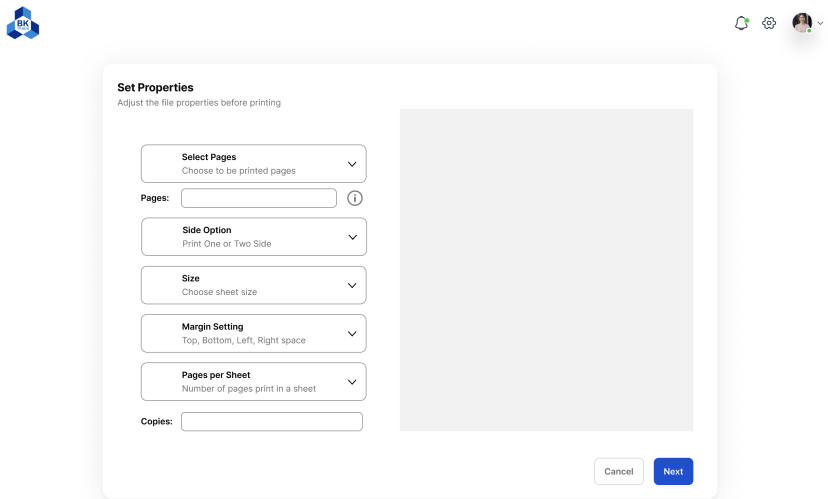


After Print Documents, the user will be directed to Upload Page. In this page, there are two options for them to upload a file. First, they are able to upload the document by drag and drop.

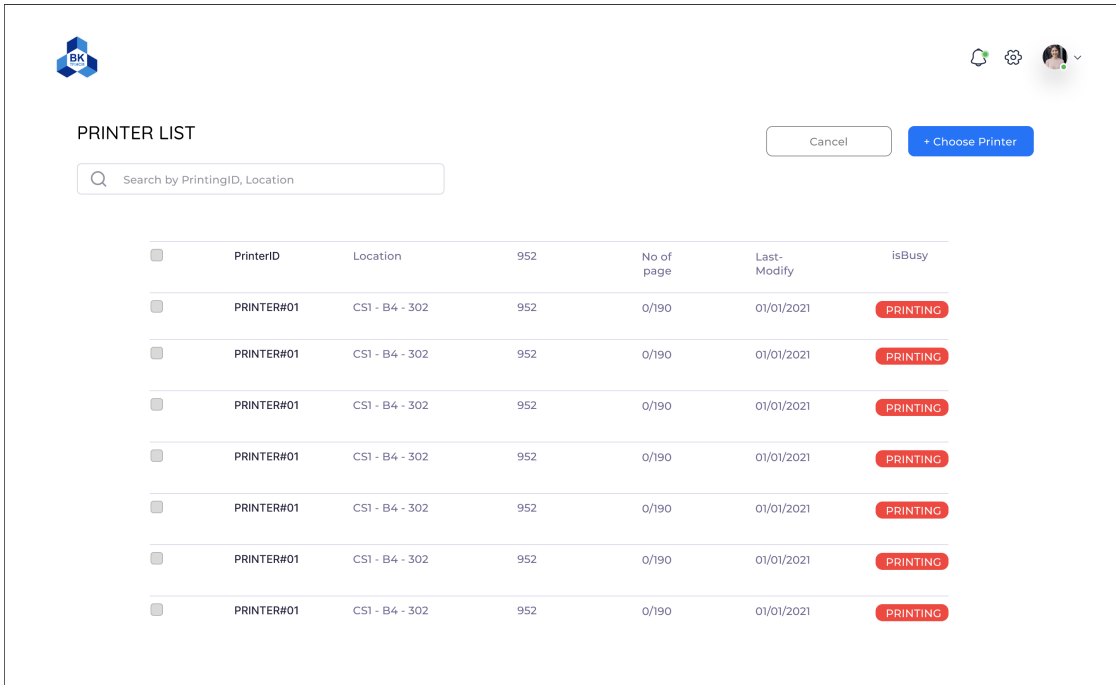
The other option is that they can click into the browse file and choose the file they want to print.



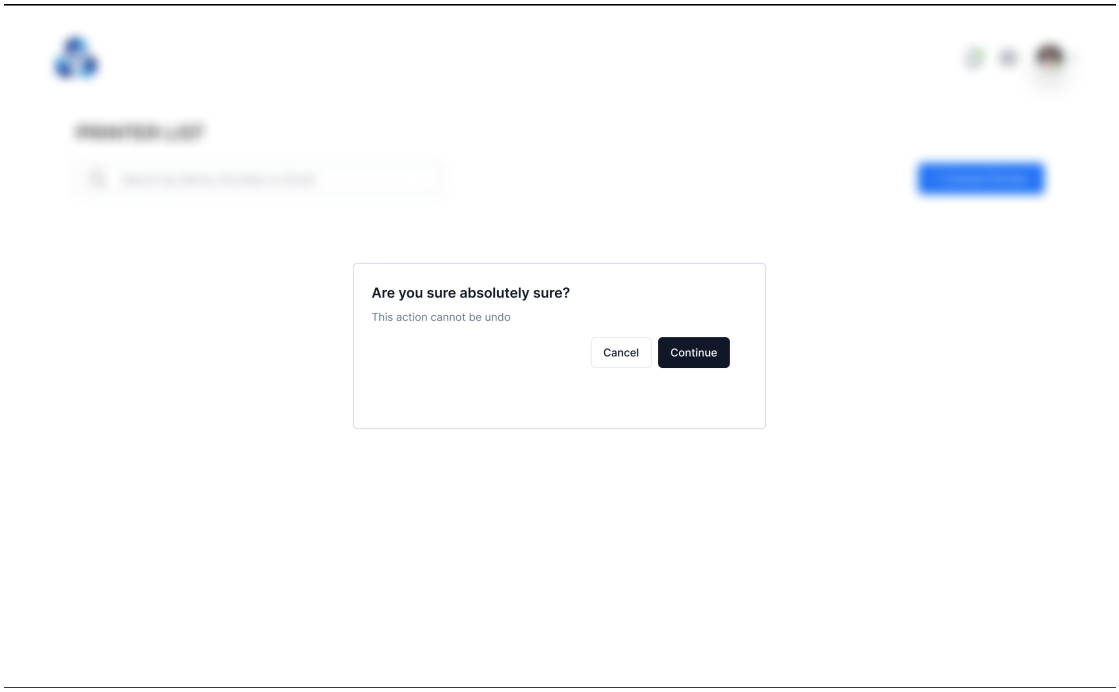
This is the UI when the file is uploading



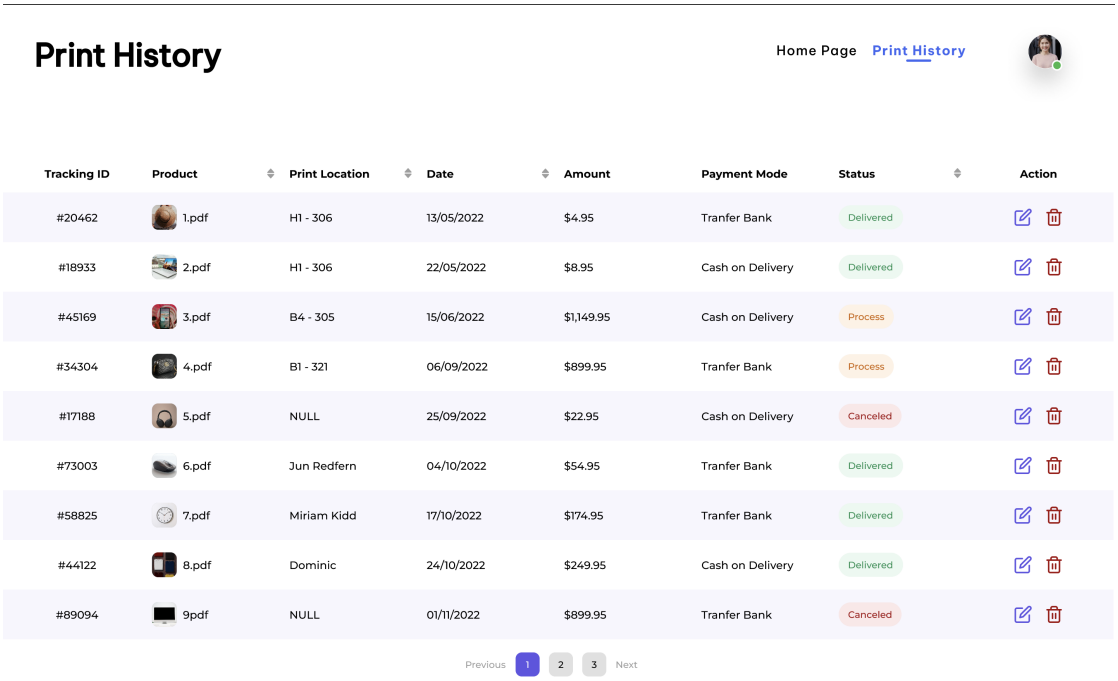
After press next in the upload page, the user will be directed to the Set Properties page. In this page they will select their properties to meet their requirements. Then they can press next to go to the Choose Printer Page.



In the choose Printer Page. User just need to choose the printer and then send the request to the printer to print.



This is the confirmation message to before send the request.



Finally, it will go to the Print History and show all the history of the user
